Re: Potlatch (ARD006345607; AFIN: 50-00001) Preliminary Assessment Report

Dear Mr. Ofosu:

The Preliminary Assessment (PA) for the Potlatch site located in Prescott, Nevada County, Arkansas has been completed. Enclosed are one hard copy and one CD of the PA Report. A Pre-score package has not been included based upon a mutual agreement between ADEQ and EPA.

The Potlatch site has been industrially used for close to 100 years. The PA investigation determined several areas of probable soil, groundwater, and surface water contamination attributable to past site operations. The ADEQ recommends that a Pre-score package be prepared to determine the need for further action or investigation.

Upon your review and approval of this PA Report, please sign the appropriate pages and return to my attention. This will assist in our tracking and filing procedures.

If you have any questions or require additional information, please contact me at (501) 683-0822.

Sincerely,

Jonathan Wells
Site Assessment Section Inspector
